NEW ROOF COMPLETED! As you pull in the driveway, you are greeted by gracious palms and a bounty of roses, hibiscus and bougainvillea, gorgeous when in bloom. Enter this home, bathed in natural light, through the double front doors of beveled glass into the great room with a cathedral ceiling and tile flooring. Three glass sliders form the back wall, looking out to the screened lanai with climate-controlled storage room, open paved patio and beyond to green space. The sliders will glide to either side, giving wide entry to the screened lanai and easily expanding your living into the outdoors. This Peterson Gardenia II possesses the highly desirable split floor plan, with the master suite and the guest quarters on opposite sides of the house. A carpeted space off the great room can be used as formal dining, office or even sitting room/library. The great room flows into the gorgeous, updated kitchen, which boasts beautiful solid wood cabinets, granite counters and Bosch appliances. The upper cabinets have glass panes, while the lower cabinets and pantry have pull-out trays, making them easy to use. All drawers and cabinet doors are soft close. A dining nook at the rear also has French doors opening to the screened lanai. The carpeted master suite offers his and hers walk-in closets and private access
